

FIRE DEPARTMENT
250 LIVINGSTON STREET BROOKLYN, N.Y. 11201

DIVISION OF FIRE INVESTIGATION

12/5/82

S.F.M. John Stickwers,

I would like to commend F.M. Ralph Feldman for an excellent job done on Wed. 11/24/82 when he delivered a lecture and slide presentation on building construction past & present in the N.Y.C. area.

The members really learned something that will make them better fire investigators. They participated fully and there was not a question asked that Ralph did not have the answer.

In two hours he gave a lecture which should be allowed a full days time.

One hundred slides and not one cue card, he really knows the subject.

I recommend his presentation be given at Fire Marshals school and any future Victor Collimore Institute classes.

Sincerely, John H. Santiago
S.F.M. Sqd 40 T.F.
